Product wants to better understand Kraken's on-boarding as they are a good alternative for Bitstamp for the xRapid pilots. This is separate to our deal talks with them.

They are looking to hire from outside for ▮▮▮ role.

thanks for this. please just give me one bullet for any account you want to call out (vs one bullet for both last week and next week).

Kraken - why are we talking about xRapid integration when we still haven't heard back from them on our proposal?
Moneygram - does filling ▮▮▮▮'s role mean hiring someone or assigning to an existing employee?
